

Product Development continued

Product Pipeline

Delivering a strong and robust pipeline is one of the Group's strategic priorities. The chart outlines the status of the major projects. Owing to the nature of product development, the content of our pipeline will change over time as new projects progress from Evaluation to market or as projects are terminated. For competitive reasons, exact project details are not disclosed.

Key to Product Pipeline Our Key Therapeutic Sectors

Analgesic, Anaesthesia,	●
Anti-inflammatory	●
Antimicrobial	●
Antiparasitic	●
Cardiology	●
Dermatology	●
Endocrinology	●
Gastrointestinal	●
Vaccines	●
Lameness	●

① — Evaluation

CAP/Equine	FAP
<p>New opportunities are constantly being evaluated and will move into Feasibility quickly if of interest</p> <p>➔ Read more about the Evaluation Process on page 40</p>	

② — Feasibility

CAP/Equine	FAP
● Ocular anti-inflammatory for dogs	● Poultry vaccine
● Endocrine therapy for dogs	● Poultry vaccine
● Endocrine therapy for dogs	● Antibiotic for pigs and poultry
● Endocrine therapy for cats	● Swine vaccine
● Gastrointestinal therapy for dogs	● Swine vaccine
● Dermatological therapy for dogs	● Swine vaccine

③ — Research

CAP/Equine	FAP
● Anaesthetic for dogs and cats	● Antibiotic for cattle, pigs and poultry
● Endocrine therapy for cats	● Antibiotic for pigs
● Gastrointestinal therapy for horses	
● Endocrine therapy for horses	
● Anaesthetic for cats	

④ — Development

CAP/Equine	FAP
● Antibiotic for dogs and cats	● Poultry vaccine
● Analgesic therapy for dogs	● Paraciticide for poultry and pigs
● Analgesic therapy for horses	
● Lameness therapy for horses	
● Gastrointestinal therapy for dogs	
● Dermatological therapy for dogs	
● Lameness therapy for horses	
● Dermatological therapy for dogs	

⑤ — Registration

CAP/Equine	FAP
● Cardiovascular therapy for cats (Le Vet)	● Antibiotic for cattle and pigs
● Gastrointestinal therapy for dogs	
● Analgesic therapy for dogs	
● Dermatological therapy for dogs (Le Vet)	
● Analgesic therapy for dogs	
● Gastrointestinal therapy for dogs	
● Anaesthetic for dogs
