Product Development continued

Product Pipeline
Delivering a strong and robust pipeline is one of the Group’s strategic priorities. The chart outlines the status of the major projects. Owing to the nature of product development, the content of our pipeline will change over time as new projects progress from Evaluation to market or as projects are terminated. For competitive reasons, exact project details are not disclosed.

Key to Product Pipeline
Our Key Therapeutic Sectors

- Analgesic, Anaesthesia
- Anti-inflammatory
- Antimicrobial
- Antiparasitic
